Belting, under the above Trade-name, which was not of F. Rendaway & Co.'s manufacture, action was taken by them before the House of Lords, with the result that judgment was unanimously delivered in their favour, thus deciding conclusively that the Trade-name "CAMEL HAIR" BELTING is Messis. F. REDDAWAY & Co.'s exclusive property and that "CAMEL HAIR" BELTING means "REDDAWAY'S BELTING" and

REDDAWAY'S ALONE. All persons are crutioned against applying the above Trade-name to any Belting not manufactured by F. Reppaway & Co., Ltd., and against dealing in Belting described as " Camel," " Camel Hair" or "Camel Brand" which does not bear the Trade Mark of the manufacturors in question.

WE are glad to see from Dr Eitel's Educational Report that physical training is still being conducted in a number of schools in the Colony. He says :- Eight of the local Schools continue the physical drill which is with mails, &c., from San Francisco to a popular exercise even in Girla' Schools. The drill instructor, supplied by the Military Authorities, is giving great satisfaction especially since the Military Authorities courteously set the drill instructor free from certain duties which formerly interfered with the regularity of his attendance in the Schools. The Cadet Corps is being drilled in sections, a supply of wooden rifles having been sent to the three Schools interested.

MR A. A. D. Sassoon was summoned to appear before Commander Hastings, at the Magistracy to-day, to answer to a charge brought against him by Sanitary Inspector Reidie for failing to abate a nuisance on the first floor of No. 8, Kwai Wa Lane. Evidence was given by Inspector Reidie as to the condition of the premises. The The P. & O. s.s. > THE Weekly Topicist writes to the Singapore Free Press :- Hongkong has acked Mr Chamberlain for the bread of local self-government. He gives that Colony the indigestible stone of a nominal concession. And a 'great disappointment gnaws the vitals of Mr Whitehead and his allies. This shows the danger of asking too much in the hope of getting some fair share of what you ask. The result is often to choke off all concession and to turn the hearts of Down. ing Street against those pestilent fellows who will bother themselves about inflating the Hongkong Frog up to the bulk of the Bull of Australia.

THE total sum disbursed by the Hongkong Government for educational purposes in 1895. was 873,775.24 as compared with 879,268,14 in 1894, but after deducting receipts in the shaps of school fees and educational refunds this sum was reduced to \$60,140.24 as compared with \$67 371.95 in 1694. Dr Eitel says the decreass is due to the effects of the plague epidemic of 1894 on the saruings for in this murning, bound to Vindivostock. 1596 in grant-in-aid schools. The noti cost of education in 1895 amounted to 2.87 per cent. of the total Colonial Revenue as compared with 2.07 per cent in 1894 and 3.22 per cent, in 1803. The education of each scholar (Police School excepted) cost \$7.09 as compared with \$7.68 in 1804 and \$7.75

'FRAGRANT WATERS' MURMUR That the indignation of our British residents over the official claying of reform in our Government has given place to something akin to self-contained contempt for the system which needs to be bolstered up by such means, and pity for the officials and unofficials who condescended to adopt the means which were so carefully and secretly called into

oneration. That I see you fall back upon the despatch of Lord Ripon, and say it was a pity the Petitioners did not eject to go on the Municipal Council card.

That, assing the officials kept all the cards ed out, it is difficult to see how the Memerialists can be blamed for failing to play a certain game.

Petition and of the Petitioners from beginning to end -is discreditable to the Colonial Office and to the local Government, and it is a marvel to every man of common sense how the Official element here or at Home can possibly regard the result as a viotery.

GREAT BRITAIN, INDIA, AND INDIAN

London, July 3. - The papers relating to the Suskim expedition have been issued. A despatch from Lord George Hamilton dated the June SOth, replying to one from the Vicercy of India, lays down that whenever temporary loan of military forces is urgently required, either by Great Britain et by India, such is to be promptly given an far an ability and resources of either country permits. It then proceeds to argue that India has no greater interest than that of preserving rapid and secure transit with Great Britain, and it is equally manifest that for this purpose it is indispensible to maintain a settled and orderly Government in Egypt, and the present operations were an integral part of the policy entailed upon Her Majerly's Government by the sound situation of Egypt. India has, therefore, a material and special interest in supporting that policy. India had been merely asked to bear a slight weakening of her forces, and no additional peountary burd in, If the troops were required to remain beyoud December Slat, the question of charge ing India with any portion of the expenses. would be again most excefully considered. The precedent new created can only apply to loans of small budies of troops for short periods for purposes in which Indiahas a substantial interest. Regarding the deapatch of Indian troops to Momhassa, Lord George Hamilton held that India had no special interest there. Therefore, nothing would be charged, but he regards it as wholly impossible to maintain the reference to Suskim. The Times, commenting on the Suskim

papers, regrets the overruling of the protest of the Viceroy and his Council, and charges Lord George Hamilton with inconsistency in applying the principles urged by the Treasury. India's interest in Soudan affirs is only contingent and remoto. Indla adequately contributes in respect thereof by lending her troops. THE MISSIONARY IN APRICA. The British and Foreign Anti-Slavery Society publishes a journal styled 'The Anti-Slavery Reporter.' This little journal contains an appreciative notice of a work entitled 'A Naturalist in Mid-Africa' (by G. F. Scott-Elliot, M.A.), from which the following extract is taken :- Missionary work is more difficult to speak of. I have scoring the required 11 runs. - Sydney Morn. known missionaries of every denomination, ing Herald. and of every shade of character and utility. Many would probably be of more use in teaching Sunday schools in England, and some are so dangerous and turbulent that they ought to be promutly removed. On the other hand, I should not be slive were it not for the kindness of missionsties; and of the good that is done by those who are

of the right temper and spirit it is impos-sible to speak too highly. The Roman Catholics, were it not for their disingenuous political methods, always perform a valuable work. They have no interests outside it; they understand that development of Formosan commerce is manual, montal, and spiritual training go that of communications. At present, facilitogether; they have perfect organisation and discipline; and what is more import- Formosa or exporting Formosan products to

gerous. The ordinary mission boy (as a also to Formous tea, which, he said, had to layman understands him) is an comitigated be sent to Amoy and there prepared for scoundrel. This, however, one must ex- export, whereas, if the work were done by pect, as no mission gets rid of any boy that Japanese in Formose, considerable outley affords the least promise. Moreover, one might be saved .- Jopan Mail. must not expect so much from the Christian native in Africa as people labitually do. A boy, who is usually not removed by THE Singapore Free Press says:--That a single generation from savagery, cannot broad-minded and well-travelled nobleman, be expected to show the truthfalness, Lord Sudeley, who in the discussion that honesty, unselfishness, and purity which, followed Mr Swettenham's paper on Malaya, as we know, always and invariably charac- among other complimentary things said that terise European youths who have been there were no officers in the world to equal brought up in Christian teaching, and re- those of the Native States, should not for a present in their instincts, about twenty moment be confounded with the Lord Sudley, centuries of hereditary civilisation. No son of the Earl of Arran, who in a report of human being can estimate or criticise the a breach of promise of marriage, brought spiritual work that is carried on in any against him by Miss Mary 'Stuart' Smith, mission. The mental and manual work is is shown up as writing this sort of pille:so obviously good, that no same person can | Counsel then read portions of the letters have anything but praise to give. I do not, referred to, and in which defendant called myself, think that such subjects as Latin, the plaintiff 'Pussy,' and signed himself Greak, Hebrew, mathematics, moral philo- | Podge. In some of them | send me a dear fat letter-(laughler)-my training in habits of hard work, but in baby do this." spite of such minor details, one is amezed at the advance made during the lest ten vears, and which seems to increase in Folios .- W. Robinson & Co. rapidity with time. At the ame time, mission work can only be successful if the natives are thoroughly aware that being a necessary factor in the situation, enormous obstacles are thrown in the way alike of the Government and the mession, if they do not give each other cordal help.

CRICKET REMINISCENCES. The recurrence of the Marylebone C.O. and ground fixture with the Australians will always bring to mind the memorable event of 27th May, 1878, when the pieceer eleven, after the most remarkable match ever played, were returned the winners by hims wickets. This extraordinary event commenced and terminated on the one day. The Australians had just Anished an engagement with Nottlogham, and so hollowly were the former defeated (an tonings and 14 runs), that the English public had formed a poor opinion of the antipodean leam. Rain which had fallen during the morning, cleared between 11 and 12 o'clock, and the wicket was considerably affected thereby, The strength of the home term may be gathered from the following sames:—W. G. Grace (captain), A. N. Hornly, C. Booth, A. W. Ridley, A. J. Webbe, Wild, Flowers, G. G. Hearns, Alfred Shaw, G. F. Vernon, and Morley; while the Australians were D. W. Gregory (captain), W. L. Mardoch, W. Midwinter, G. H. Bailey (Tarmanie), A. and C. Bannerman, T. W. Garrett, T. Horan, F. Allan, F. Spofferth, H. F. Boyle, Grace and Hornby opened for M.C.C., Allan and Boyle taking up the bowling. Grace took strike Alian and hit the first ball to leg for 4. The second ball Allan dropped in the same place, and Midwin-ter, who had shifted round, brought off an easy patch. A shout of surplue followed the fall of W. G.'s wicket. C. Booth, who followed, was immediately bowled by Boyle. Ridley and Hornby carried the score to 25, in the course of which Hornby, his a ball from Boyle hard to square-leg, and through the fanlight of a billiard-room, Runs were coming a triffe fact, so Spe forth displaces Allan at the bowling prease | Spofferth's second ball knooked Bornby's lag stump out of the ground. Webbe succeeded Hornby and with two singles added, he was bowled by Spofforth. Four for 29, and the hopes of a respectable score were fact vanishing. Wild joined Ridley, who scored a single and then the former was bowled by Boyle. Fire for 80. Ridley was then eaight by A Bannerman off Boyle, Six for 31. Spofforth then cleaned bowled Hearne, while Altred Shaw and Vernon were stumped off him in the two succeeding balls, thus doing the bal trick; and Flowers wee shortly after caught and bowled by Spofforth, and the innings. closed for 33 after an hour and a halt's play. Homby's was the only double figure score namely, 19. The bowling of the Australians was superb. Spofforth's figures were six wickets for 4, and Boyle's there for 11. Australia responded with 41. Aifred Slinw secured five wickets for 10 runs, and Morley five for 31. At 4 o'clock, M. C.O. commenced its second innings with, as before, Grace and Hornby, and were oppreed by Spofferth and Boyle. The first ball from Spofforth evidently puzzled Grace the second; rather a slow cos that same across from the leg, clean bowled him. Webbe came is, but only to be bowled at once by Spoffveth. With two wickets down and no runs scored Booth came in. Harphy scored a single from the first ball bowled by Hayle. The third distalcant Booth, and the fourth bowled Ridley. Wild joined Bornay, who was most painfully burt by a ball from Spofforth, and had to leave the field. Flowers joined Wild, and some little improvement took place. Flowers played very pluckly, and by small hits the score rose to 11. Then

nipps ever seen at Lord's was over for only 19 runs. From the following analysis it will be seen that Boyle took air wickets for

Instead of being lowering to the system, ENO'S " FRUIT SALT" is in the highest degree Invigorating, and does not cake or get hard in warm and humid Climates. A SPARKLING AND REFRESHING DRAUGHT.—Notwith"tanding its medicinal value, the" FRUITSALT" must be looked upon as essential as breathing fresh air, or
as a simple and safe beverage under an enconstruces, and may be taken as a spainling and refreshing draught in the same way as Lemonade, Sode, Water, Potass Water, to, only it is much cheaper and
secures, in every sense of the Team, to an exclusive refer.

Impure Blood.

PRESERVING AND RESTORING HEALTH.—ENO'S FRUIT
SAFT" note as simply, yet just as powerfully, on the animal system as unashine does on the vegetable
world. It has a natural action on the organs of digestion, absorption, circulation, respiration, secretion,
and exerction, and removes all impurities, and hinders (by institud means) the unnatural and dangerous
accumulation of fat. It keeps the body in healthy sum, by preserving and restoring health. TO PARENTS.—This preparation is invaluable in the nutsery as a gentle laxative; It is pleasant to the taste, and much superior to senna or ellier nautions drags; it corrects the ill elects of over-cating or exhaustion, it is extremely beneficial in any levertainess or heat of the skin. The bounds ought to be kept free by the "FRUIT BALT" for a month or six weeks after cruptive diseases, as Measles, Scalet Fever, Chicken-pox, Smill-pox, and all Fevers or injectious Diseases, &c.; for its use frees the system of the "dregs." Many disastious results would be avoided by attending to this.

POT COUNTRIES.—ACIDITY OF THE STOMACH. &c.

"I have personally used ENO'S 'FRUIT SALT,' and know that along to be excellent, but recity
invaluable. Especially must this be the case in the hot countries of the East, where Acidity of the
Stomach, Billousness, and Fevers are so common."—J. M. Prestis, M.D., Author of Around the World.
